

PRODUCT UPDATE

NEW X30 PARTS

"As many of you know, the ongoing COVID pandemic has continued to severely impact supply chains across the world and IAME USA was put into a position to move to the current global IAME X30 specifications earlier than anticipated. With an inadequate supply of the USA spec(2013 and older model) parts into the foreseeable future, this is the only feasible option we had on the table. Although not ideal in the short term as we understand there is some inconvenience to the changes, this puts us back in line with IAME X30 rules across the world. With this move, we anticipate another very long period with little to no changes similar to our first seven years with the X30 platform here in North America.

We are very proud of our accomplishments with the IAME platform over the last seven years and are also extremely grateful for the support of IAME Spa to help promote karting in the United States. These are certainly trying times for everyone, but with the recent influx of new karters entering our sport through our facilities over the last six months, it's become apparent that karting will continue to thrive as a foundation for motorsports and one of the best sports activities that families can be involved in.

Thanks again for your continued support of the IAME program and we look forward to seeing where the future takes us." -Eric Jones, IAME USA East

-New X30 engine kits will be available with all of the new components including the new roller bearings at IAME USA East approximatley Feb. 20th along with our stock of the new IAME parts. Please contact your IAME dealer to get your orders in. IAME USA East already begun taking preorders.

-SKUSA announcement can be seen here: <https://superkartsusa.com/national/skusa-pro-tour/3184-official-statement-from-iame-usa-regarding-2021-updates-to-new-x30-pipe-and-x30-configuration.html>

-WKA announcement can be seen here: <https://worldkarting.com/world-karting-association-announces-supplemental-rules-package-for-remainder-of-2021-for-wka-manufacturers-cup-wka-summer-series-and-wka-america-programs/>

-USPKS announcement can be seen here: <https://uspks.com/uspks-announces-iame-x30-updates/>

-Many clubs/series including GoPro Motorplex, AMR Motorplex, and SSKC will make the parts legal beginning in the middle to end of April. Please check the rules for your series or track regarding the implementation and legality of these changes.

X30

NEW X30 PARTS

New Exhaust System – Full length one piece pipe with fully machined header manifold similar to IAME Swift and KA100 setups. Junior will be restricted to 22.7mm exhaust manifold. Parts will be available individually but special pricing will only apply for the full kit which includes one piece pipe, manifold, studs, springs, and gasket. The 3mm spacer will not be included nor legal.

Part #X30125715-KU(Senior) & X30125715-KUJ(Junior)
Special Introductory Promotional Price \$219.95

Simplified Ignition System – Includes simplification of the complete electrical system with 16,000 RPM limiter. This system is more robust and has components with greater reliability. Kit pricing includes stator, coil, full harness, start/stop buttons with bracket, and battery box cradle with chassis clamps.

Part #X30125983C
Special Introductory Promotional Price \$449.95

New Airbox/Intake Silencer – Same size inlet tubes but with an aesthetic and modernized update. Includes box, filter, clamps.

Part #X30125740
Special Introductory Promotional Price \$74.95

New Roller Main Bearing – New SKF roller style main bearing with proprietary design which provides an extremely long lifetime as well as significantly increasing the life of the crankshaft and cases.

Part #X30125397
Special Introductory Promotional Price \$59.95
